

Board of County Commissioners of Lincoln County  
Agenda for June 7, 2022

- 9:00 Call to order and Pledge of Allegiance
- 9:15 John Mohan, Maintenance Director, to discuss grounds and buildings matters
- 9:30 Andy Lorensen, Human Services Director, to discuss Healthcare Policy and Financing funds
- 10:00 Ty Stogsdill, Land Use Administrator, to discuss the June 2, 2022, Land Use Board meeting

-To be completed as time permits-

---

1. Approve the minutes from the May 27, 2022, meeting
2. Review the employee timesheets for County Administrator Jacob Piper, Land Use Administrator Ty Stogsdill, Landfill Manager Allen Chubbuck, Weed Control Coordinator Patrick Leonard, Office of Emergency Management Director Ken Stroud and Public Health Director Kelly Meier
3. Review and act upon Resolution #1066: a resolution to impose a moratorium on the acceptance of applications to create subdivisions
4. County Commissioner reports
5. County Attorney's report
6. County Administrator's report
7. Old Business
8. New Business
9. Approve Expense Vouchers

The Board of Lincoln County Commissioners met at 9:00 a.m. on June 7, 2022. Chairman Doug Stone, Commissioners Ed E. Schifferns and Steve Burgess, County Administrator Jacob Piper, County Attorney Stan Kimble, and Clerk of the Board Corinne M. Lengel attended. Limon Leader/Eastern Colorado Plainsman reporter Stephanie Zwick, commissioner candidate Wayne Ewing, and Nyal Smith attended until 11:30 a.m.

Chairman Stone called the meeting to order and asked Mr. Burgess to lead the Pledge of Allegiance.

Maintenance Director John Mohan met with the Board at 9:15 a.m. to discuss grounds and buildings issues. Mr. Burgess explained that Andrew Lorensen called him about a water leak in the DHS department, so he wanted Mr. Mohan to let them know what he'd found. Mr. Mohan said he'd dealt with it for years, usually after a hard, north-driving rain. He'd coated the ridge cap and valley several times, attempting to stop the leak, but he couldn't find where it originated. He felt it was either coming down the beam or backing up in the valley. Mr. Mohan spoke with Richard Pearson the last time it happened, and Mr. Pearson thought it was the latter. They also discussed putting a universal closure at the bottom; Mr. Mohan said they'd lost quite a bit of closure over the years. Mr. Pearson planned to talk to Bart O'Dwyer about it. Mr. Mohan said he'd asked Mr. Pearson for a quote to redo all the valleys, but Mr. Pearson had concerns about the liability if he worked on the metal roof but didn't fix the problem. He told Mr. Mohan he didn't want the county coming back on him for that reason. However, Mr. Pearson agreed to look at it this week. Mr. Stone said they had to start somewhere and didn't see how the commissioners could blame Mr. Pearson if he didn't fix it. Mr. Pearson also had concerns about mold in the insulation, but Mr. Mohan said there was no sign of mold—at least on the ceiling.

Regarding the new maintenance shop, Mr. Mohan said he'd been trying to decide what the cheapest options were and the best place to locate it. There is an electric meter in the empty lot north of the courthouse, so it would be cheaper to run the power from there. Mr. Burgess commented that the commissioners had discussed routing drainage to that empty lot if they got around to that project and said he preferred Mr. Mohan put the shed back by the Conex containers as initially discussed. Mr. Schifferns felt it would be more convenient for Mr. Mohan to put the new building where the old one was, and Mr. Stone agreed that it would look better.

Mr. Mohan left, and Mr. Stone asked Mrs. Lengel to clarify the May 27 minutes regarding the truck delivery portion of his report. Even though they plan to buy the truck this year, they won't take delivery until March or April of 2023 because companies have had such difficulty delivering their products lately.

Mr. Schifferns moved to approve the minutes from the meeting held on May 27, 2022, as corrected. Mr. Burgess seconded the motion, which carried unanimously.

The Board reviewed the timesheets for the administrator, land use administrator, landfill manager, weed control coordinator, emergency manager, and public health director.

At 9:30 a.m., Human Services Director Andrew Lorensen met with the Board to discuss Healthcare Policy and Financing funds. He'd applied for employee retention funding when the state offered it and received approval of \$250 per person, except one. To qualify, the employees had to deal with Medicaid somehow, but the one employee who didn't receive the benefit had no job duties relating to Medicaid. Mr. Lorensen asked if the commissioners would allow him to use county-only dollars to give that one employee the same amount as the rest of his staff members.

The Board agreed it was only fair, and Mr. Burgess moved to allow Mr. Lorensen to pay Tricia Borns \$250 from county dollars for employee retention. Mr. Schifferns seconded the motion, which carried unanimously.

Mr. Lorensen left, and the Board discussed the subdivision application moratorium. Mr. Kimble noted that the current regulations were fifty years old, adopted in 1972, so it was likely time to update them. He explained that while subdivision regulations dealt with the size of land parcels, zoning regulations applied to their use. While the two interacted, they were very different. Mr. Kimble wasn't sure from where John DeWitt took his information to create the document he'd given the commissioners at the last meeting but noted that Mr. DeWitt included mobile home regs typically incorporated in the zoning regulations. He stated that municipalities had changed the way they viewed and even referred to mobile homes, which they now called modular or manufactured homes. The old argument was that mobile homes destroyed the tax base, but they are much better products now that don't lose their value as they did in the past. Mr. Kimble felt it was essential to address the structures and said they might need to combine the subdivision and zoning regulations. He added that adopting the resolution wouldn't affect the thirty-five-acre exemptions that landowners currently request. Since it was in effect for ninety days, the moratorium would give the commissioners time to review and discuss everything in detail.

Mr. Burgess moved to adopt a resolution imposing a moratorium on accepting applications to create subdivisions. Mr. Schifferns seconded the motion, which carried unanimously.

At a regular meeting of the Board of County Commissioners of Lincoln County, Colorado held in Hugo, Colorado on June 7, 2022, there were present:

Douglas D. Stone, Chairman	Present
Ed Schifferns, Vice Chairman	Present
Steve Burgess, Commissioner	Present
Stan Kimble, County Attorney	Present
Corinne Lengel, Clerk of the Board	Present
Jacob Piper, County Administrator	Present

when the following proceedings, among others, were had and done, to-wit:

**RESOLUTION #1066** It was moved by Commissioner Burgess and seconded by Commissioner Schifferns to adopt the following resolution:

**A RESOLUTION TO IMPOSE A THREE-MONTH MORATORIUM ON THE ACCEPTANCE OF APPLICATIONS CONCERNING THE LINCOLN COUNTY SUBDIVISION REGULATIONS REGARDING THE CREATION OF A “SUBDIVISION” OR “SUBDIVIDED LAND”**

**WHEREAS**, the Board of Commissioners of Lincoln County, hereinafter referred to as the “Board”, did approve the Lincoln County Subdivision Regulations on September 5, 1972

**WHEREAS**, the Board drafted subdivision regulations in April of 2014; and

**WHEREAS**, due to concerns raised by local utility companies and Land Use Board, the rough draft was not adopted and needed further review; and

**WHEREAS**, the Board of Commissioners wishes to explore regulations, or amended regulations, which would protect both the applicant, landowners, and utility companies.

**NOW, THEREFORE BE IT RESOLVED** by the Board of County Commissioners of Lincoln County:

**Section 1. Implementation of Temporary Moratorium on the acceptance and consideration of applications for permits seeking to create a subdivision or subdivided land**

Upon the adoption of this resolution, a moratorium shall be enforced for three (3) months from the date of this Resolution, unless sooner rescinded or extended by the Board. The moratorium shall be imposed upon applications to create subdivisions or subdivided land under the regulations stated in the current Lincoln County Subdivision Regulations adopted in 1972.

**Section 2. Effective dates of the moratorium.** The moratorium imposed herein shall continue up to and through three (3) months, unless sooner rescinded or unless extended.

**Section 3. Staff to Investigate and Prepare Proposed Regulations.** Before the expiration of the moratorium, the County staff and relevant Board committees shall carefully review the possibility of creating reasonable regulations concerning the creation of subdivision or subdividing land, while also considering the impact such regulations may have on utility companies, the applicant, and surrounding landowners. Such investigations shall be completed promptly and with due diligence. If directed to do so by the Board, the County Attorney and County Staff shall prepare appropriate new regulations with respect to such uses for consideration by the County Land Board and / or the Board of Commissioners.

**Section 4. Subdivision Exemptions.** This moratorium excludes all subdivision exemptions or subdivision exemption applications that are pending or proposed

**Section 5. Police Power Finding.** The Board of Commissioners hereby finds, determines, and declares that an emergency exists, and that this resolution is immediately

necessary and proper to provide for the safety, preserve the health, promote the prosperity, and improve the order, comfort, and convenience of the inhabitants of unincorporated Lincoln County.

**Section 6. Authority.** The Board of Commissioners hereby finds, determines, and declares that it has the power to adopt this Resolution and temporary moratorium pursuant to: (1) the Local Government Land Use Control Enabling Act, §29-20-101 C.R.S., et seq, and other relevant statutes.

**Section 7. Severability.** If any section, subsection, or clause of this Resolution shall be deemed to be unconstitutional or otherwise invalid, the validity of the remaining sections, subsections, and clauses shall not be affected thereby.

Upon roll call the vote was:

Commissioner Burgess, Yes; Commissioner Schifferns, Yes; Commissioner Stone, Yes.

The Chairman declared the motion carried and so ordered.

Board of County Commissioners  
of Lincoln County

ATTEST:

\_\_\_\_\_  
Clerk of the Board

Mr. Stone reported attending the summer commissioner conference from May 31 through June 2. One of the recurring topics was the water shortage. Mr. Stone had a call from Judd Kravig on June 5; a farmer dropped some equipment on a county road, leaving some damage. Mr. Kravig put up warning signs for motorists until the road crew could make the necessary repairs. Mr. Stone said he checked the area on June 6, and they had fixed it. Mr. Stone spoke with Mr. Kravig about the problems with the bridge on County Road 11, and they decided they'd have to close the road because there was no way to put in a detour. He planned to look at it on Wednesday. Mr. Kravig told him the pilings rotted off, and water pooled under the bridge, probably waist-deep. Mr. Stone said the email from the state recommended using a grout-filled reinforced polymer jacket, but he wanted to hear the engineer's ideas.

Mr. Schifferns reported the District 1 crew was still shorthanded, and even more so the previous week because one was on vacation. They started grading and doing road maintenance after receiving some moisture, and they had also hauled gravel. The sweeper District 1 shares with District 2 went down, but they repaired it, and it seemed to be running okay again.

Mr. Burgess reported attending the summer conference from May 31 through June 2. He and Mr. Stone talked to Bob Campbell about salaries. Mr. Burgess said they discussed landfills in one of the small county breakout sessions; Chaffee County received a \$360,000 grant to start a recycling project. Mr. Burgess attended the annual Mountain View Electric Association meeting, where they announced the new CEO replacing Jim Herron. Lincoln County will host the Eastern District Commissioner meeting in Limon on September 16. Mr. Burgess reported that Andrew Lorensen called him on June 3 to report his concerns with the leaking roof in DHS. Extension Agent Robin Halley called Mr. Burgess to let him know he'd hired a new employee, and Mr. Burgess told him to come down and discuss it at the commissioner meeting. Allen Chubbuck called Mr. Burgess to let him know that Wagner came out and looked at the landfill's loader. It needs an electrical sensor on the torque converter. They ordered the part and will return to repair the loader when it comes in. Mr. Burgess received a call on June 6 from a resident concerned about the condition of a county road after it rained. Mr. Burgess said he'd contact Bruce Walters.

Land Use Administrator Ty Stogsdill met with the Board at 10:00 a.m. to discuss the June 2 Land Use Board meeting. Members voted to deny Edward A. Waite's Development Permit Application #21-05 for a towing facility because it was the wrong permit type. Mr. Stogsdill started a new development permit application for a junkyard and said he'd check to see if Mr. Waite needed state permits in addition to the county permit. Land Use Board members voted to approve Anthony Johnson's Development Permit Application #22-03 for his property on State Road 71, although they questioned if there were anything in the propane tanks. Mr. Johnson guaranteed they were safe.

Mr. Stogsdill asked the commissioners to add a stipulation for fire mitigation because Mr. Johnson hadn't mowed the property and something to make it look more appealing, like a privacy fence. Mr. Kimble clarified that Mr. Stogsdill wanted the Board to take a closer look at the application, stating the commissioners had thirty days from June 2 to approve it, deny it, or approve it with conditions. He asked if Mr. Stogsdill mentioned the additional conditions to the land use board members at the meeting, but Mr. Stogsdill said he'd thought of them afterward. Mr. Burgess commented it seemed the property had turned more into a salvage yard than a storage yard. Mr. Stogsdill said they'd asked what Mr. Johnson stored in the trailers on the property, and he told them he kept parts for the tanks, regulators, and other items. Mr. Johnson said he planned to use the trailer house he'd brought out from a church as an office.

Nyal Smith informed the Board he'd asked the applicant several questions during the public comment period of the Land Use Board meeting and felt Mr. Johnson wouldn't change anything if the county approved his development permit.

Mr. Kimble stopped the discussion and told the commissioners Mr. Smith should wait until the public hearing if the Board intended to take Mr. Stogsdill's suggestion and look further into the matter. Since the commissioners serve in a quasi-judicial capacity, they should only consider comments during the hearing and make their determination at that time based on those

comments. He added they would have to advertise the hearing, and since he wouldn't be available for the June 17 meeting, he asked if they would set it for June 29.

Mr. Ewing asked if other counties had denied Mr. Johnson's permits, but Mr. Stogsdill didn't know.

Mr. Kimble also noted that if the property were a junkyard, it couldn't be within 1,000 feet of a public highway. The question was, at what point did it go from being a storage yard to a junkyard. He cautioned the commissioners about saying too much when they received phone calls and advised that they tell the callers to attend the hearing and speak their piece then. Mr. Kimble also said that anonymous letters or comments weren't effective because if the commissioners denied the permit, Mr. Johnson could file a Rule 106 Action with the courts, and the judge would likely consider anonymous complaints invalid.

Mr. Burgess asked Mr. Stogsdill how the gravel pit inspections had gone, but he had to postpone them and reschedule for June 27.

Mr. Kimble wanted to know if Mr. Stogsdill knew where John DeWitt got the proposed subdivision regulations he'd asked the commissioners to review. Mr. Stogsdill thought they were the county's original regulations revised to include information from several other counties.

Extension Agent Robin Halley stopped in at 10:30 a.m. to inform the Board he'd hired someone for the administrative assistant position and that she would start June 24.

Mr. Burgess moved to approve the starting salary of Level 3, Step 3, for Amelia Sharpe, the new administrative assistant at the extension office. Mr. Schiffers seconded the motion, which carried unanimously.

Mr. Halley gave a quick update on some of his activities and left.

Mr. Kimble reported that he and Mrs. Lengel were working on amendments to the county's CORA policy to add record disposal and video footage. Parties continue to inundate clerks across the state with requests for election records, some of which are disposable according to Secretary of State rules.

Mr. Kimble said he planned to attend the county attorney's conference in Crested Butte on Thursday, and then he would work on the Genoa Tower flow-through agreement when he returned from vacation. He'd also received a letter from CDOT giving the county the first right of refusal on a three-acre piece of property with two steel buildings at Hwy 287 and County Road 2G. CDOT would like to get rid of it, and Mr. Kimble said the fair market value was \$34,000. Mr. Burgess said it was the old CDOT shed south of Gene Vick's place. He and Mr. Stone felt it was too far away for them to need it for anything, but Mr. Schiffers said he'd

speak with Chris Monks about it. Mr. Kimble had heard nothing back from the judge regarding the section line road case.

Mr. Piper said he would schedule a time for the new employees to meet with him and fill out their paperwork. He asked Mr. Kimble if the employee retirement amounts were confidential like their salaries are or if they were public records. Mr. Kimble stated the Board could go into executive session to discuss particular cases, but Mr. Piper decided to relay the information without using names. He explained that when employees take a lump sum rather than an annuity, he has to report the taxes electronically, which is an ACH payment from the bank to the Electronic Federal Tax Payment System (EFTPS). One such payment was overlooked, resulting in a \$2,100 penalty. Mr. Piper said he submitted the payment, and the county recovered most of it in interest, but he wanted the commissioners to know what had happened. He added that the process was more manageable now with direct deposit.

Mr. Stone called for old business, and Mr. Piper presented the thank-you letter to Stu and Kathy Barnes that Kevin Stansbury requested at the previous meeting. Mr. Burgess moved to sign the letter, Mr. Schiffers seconded the motion, and it carried unanimously.

Mr. Piper had received the Monthly Management Report from the First National Bank of Omaha, which the Board reviewed.

Mrs. Lengel said Nick and Tiffany Stewart were in the previous day and requested a special event permit liquor license for the Cornholers' Tournament on July 3 at the fairgrounds. They were not within the thirty-day timeline required on the application. Still, Mrs. Lengel finally found a statutory provision that allowed the commissioners to waive certain time constraints.

The Board reviewed the information, and Mr. Schiffers moved to approve the application for a Special Events Permit, Fermented Malt Beverage, for the VFW Post 6612, for the Cornholers' Tournament on July 3, 2022, at the Lincoln County Fairgrounds. Mr. Burgess seconded the motion, which carried unanimously.

Mrs. Lengel informed the Board that Tony Wernsman with WW Enterprises would be at her office the following morning at 10:00 a.m. to discuss the office addition if any of them wanted to be there. Mr. Burgess said he had other commitments.

Mr. Burgess mentioned they would have to start thinking about budgets and fuel prices for 2023 and then reminded the others to inform the road foremen that Cobitco would start imposing an \$85 hourly surcharge.

Mr. Kimble told Mr. Piper he would also work on the second notice to employees regarding the FAMLI program, but while he was gone, if Mr. Piper came across a template, he'd appreciate seeing it. The notice would have to outline current benefits available to employees and information that they could still participate in the FAMLI program even though the commissioners opted out.

Mr. Stone brought up the trailer District 3 planned to buy; the dealer only wanted to give them \$12,000 on the trade-in, and Mr. Stone felt the county could sell it for more. Mr. Burgess suggested advertising it for bid and asking a minimum of \$15,000.

The commissioners approved the expenses for May 2022.

COUNTY GENERAL

Coroner Salary \$1,138.58
